Genderless Mixer Dance

Calvin Campbell

The **Community Dance Leader's Seminar** this year was held in Mesa, AZ in April. Dottie Welch presented this very simple mixer dance. I like it because it uses a big circle for half of the dance. This dance will work very well for beginner dance parties. I like to start all my beginner parties in a big circle. I probably won't use this dance at the start of the dance, but it will be a nice addition to a spot later on in the program. To see the dance click here.

Genderless Dance Mixer
